Weather

Paddock Farms is located on a 41 acre farm with a large barn and outside corrals. Weather in Florida in the winter is unpredictable. It can range from 80 degrees to 50 degrees. There is usually little humidity and is comfortable. The mornings can be cool and then warm up in the afternoon and start to cool off in the afternoon. It will not be our rainy season so there is not a high probability of rain... BUT you never know.
