Weather

Over the course of a year, the temperature typically varies from 64°F to 83°F and is rarely below 61°F or above 86°F. It is a tropical rainforest climate with no “dry season”. The ranch is located at 900 - 1000 ft. elevation and tends toward a cooler climate than that of the lower elevations. This generally means for many people, very comfortable. It is highly recommended to have a rain coat and layers of clothing for both hot and cooler temps. Rain often comes in short bursts, which makes a raincoat helpful, but then can quickly leave and feel warm and even at times a bit humid.
